

## TESLA Model Y generation I Dog Guard art nr 40740

### **ASSEMBLY INSTRUCTIONS:**

- Press the plugs on the open pipe ends of the grid  
*(can be pre-assembled from Artfex)*
- Fold down the backrest of the rear seat, this is only to facilitate the installation.
- Place the dog guard in place in the car “resting” against the car’s C-pillars.
- Center the dog guard, pass the tensioning straps through the lashing loops of the car and through the lower tube of the guard, tighten.
- Fold back the backrest.

### **ASSEMBLY DETAILS:**

- Tensioning straps L.130cm 2
- External Plug UKB 16 2 *(can be pre-assembled from Artfex)*

*The dog guard should always be mounted so that the Artfex logo is on the right side inside the car when viewed from the rear*
