

VOLVO EX30

Dog guard Art.nr: 40739

Dog guard is compatible with the car's original privacy screen and adapted for cars with panoramic roof/sunroof

ASSEMBLY INSTRUCTIONS:

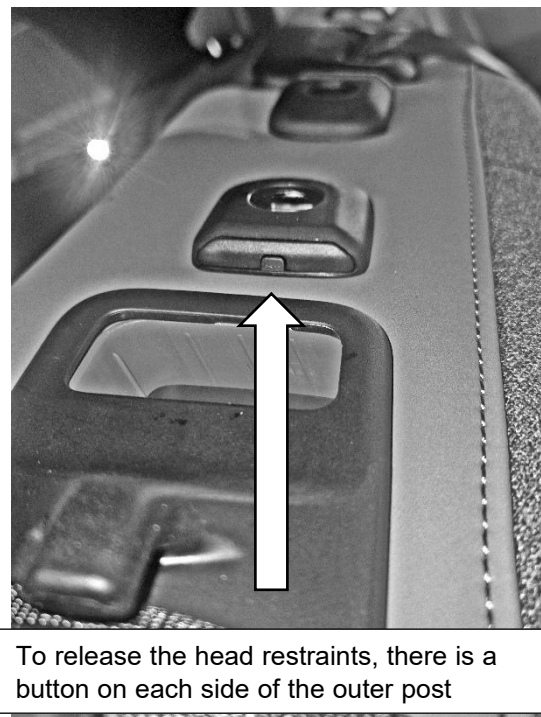

- Remove the privacy screen to facilitate installation.
- NOTE! For the following steps, it is easier if there is a person on each side of the car.
- Fold the rear seat backrest halfway down and remove the two outer head restraints.
- Hold the dog guard in place as shown and push the head restraints back into place.
- Fold up the backrests again.
- Install the tether straps by passing them through the "top tether attachments on the rear seat backrest and through the lower frame tube.

The dog guard should always be mounted so that the Artfex logo is on the right side inside the car when viewed from the rear

ASSEMBLY DETAILS:

- Tensioning strap L.30cm. 2

Pull the straps through the car's "top tether" brackets

To release the head restraints, there is a button on each side of the outer post
